

PRODUCT DATA SHEET

00-033 GOLD-TW-240

GOLD-TW-240 – Bidirectional basalt continuous filament fabric.

**PROPERTIES**

Property	Value
Fiber	BCF
Fiber areal weight	240 g/m ²

FABRIC DESIGN

Property	Value
Pattern	Twill
Width	100 cm
<i>Contact us for special widths</i>	
Warp Density	7 picks/cm
Weft Density	8 picks/cm

MAIN FEATURES:

- Flexible
- Breathable
- Light
- Anti-scratch

TYPICAL APPLICATIONS:

- Renewable Power
- Electronic sector
- Petrochemicals
- Construction sector

The described values in this technical sheet are the estimated results obtained in the TEXFIRE TEXTILS TECNICS S.L internal laboratory according to standard methodologies. TEXFIRE reserves the right to change the parameters without the obligation to notice it previously.
