

PRODUCT DATA SHEET**21-019 EGLA 200**

21-019 EGLA 200 – Fibre Glass fabric.

**PROPERTIES**

Property	Value
Fiber	GF
Glass type	E-GLASS
Fiber areal weight	200 g/m ²

FABRIC DESIGN

Property	Value
Pattern	Plain
Width	150 cm
<i>Contact us for special widths</i>	
Density	17 picks/cm

MAIN FEATURES:

- Flame retardant fabric
- Flexible
- Light
- Easy to manipulate and cut

TYPICAL APPLICATIONS:

- Renewable Power
- Building sector
- Industrial sector
- Railway infrastructure

The described values in this technical sheet are the estimated results obtained in the TEXFIRE TEXTILS TECNICS S.L internal laboratory according to standard methodologies. TEXFIRE reserves the right to change the parameters without the obligation to notice it previously.
