

## PRODUCT DATA SHEET

**B21-001 STABILIZED BLACK 3K TW 200**

TSW-CF-3K-TW-200-6CPA Bidirectional 3K Carbon Fiber fabric with web-lock stabilization.

**PROPERTIES**

Property	Value
Fiber	3K CF
Fiber areal weight	200 g/m <sup>2</sup>
Stabilizer veil	Polyamide
Stabilizer veil areal weight	6 g/m <sup>2</sup>

**FABRIC DESIGN**

Property	Value
Pattern	Twill
Width	125 cm
<i>Contact us for special widths</i>	
Density	5 picks/cm
Sizing	1%

**MAIN FEATURES:**

- Flexible
- Easy to manipulate and cut
- Suitable for aesthetic applications
- Same properties in both directions (0°/90°)

**TYPICAL APPLICATIONS:**

- Automotive
- Sports
- Ballistics
- Aesthetics

The described values in this technical sheet are the estimated results obtained in the TEXFIRE TEXTILS TECNICS S.L internal laboratory according to standard methodologies. TEXFIRE reserves the right to change the parameters without the obligation to notice it previously.
