

PRODUCT DATA SHEET

B21-003 STABILIZED BLACK 12K TW 400

TSW-CF-12K-TW-400-6CPA Bidirectional Spread tow 12K Carbon Fiber fabric with web-lock stabilization.

PROPERTIES

Property	Value
Fiber	12K CF
Fiber areal weight	400 g/m ²
Stabilizer veil	CoPolyamide
Stabilizer veil areal weight	6 g/m ²

FABRIC DESIGN

Property	Value
Pattern	Twill
Width	100 cm
<i>Contact us for special widths</i>	
Density	2,6 picks/cm
Sizing	1%

MAIN FEATURES:

- Flexible
- Easy to manipulate and cut
- Suitable for aesthetic applications
- Same properties in both directions (0°/90°)

TYPICAL APPLICATIONS:

- Automotive
- Sports
- Ballistics
- Aesthetics
- Aeronautics

The described values in this technical sheet are the estimated results obtained in the TEXFIRE TEXTILS TECNICS S.L internal laboratory according to standard methodologies. TEXFIRE reserves the right to change the parameters without the obligation to notice it previously.
